Features
- Chevron Blade Vision Proof Core.
- Door, Wall or Partition Mounting.
- Five Different Style Options.
- Light Proof Darkroom Facility.
- Extruded Aluminium Construction.
Gilberts NV Series provides a comprehensive and traditional range of vision proof grilles to suit all manner and type of air transfer application through doors, walls and partitions. The aluminium ‘V’ shape chevron blade mounted on a close 8mm pitch renders see through vision impossible and when double banked in a matt black finish, even offers a light proof assembly. With 5 different styles available the NV Series offers a wide variety of selection and installation options ranging from NV1 beaded into the door to NV6 surface mounting.

Type NV1  Vision proof core only. Designed for beading into door.
Type NV2  Vision proof core in 32mm flanged border. Designed for wall or partition mounting.
Type NV3  Vision proof core in 32mm flanged border with matching telescopic back flange. Designed for door mounting.
Type NV4  Set of two lightproof core grilles with 32mm flange borders. Designed for door transfer in dark room/light proof applications. (Matt black finish).
Type NV6  Vision proof flanged grille suitable for surface mounting onto doors, wall or partitions. Especially useful for narrow doors or fireblock installations.

Features
- Chevron Blade Vision Proof Core.
- Door, Wall or Partition Mounting.
- Five Different Style Options.
- Light Proof Darkroom Facility.
- Extruded Aluminium Construction.

All units are finished as standard either in Satin Silver (NV1, NV2, NV3, NV6) OR Matt Black (NV4) and are typically flange screw fixed. Special colours and finishes are also available on request.

All NV units can be sized and selected from the nomogram.
