

POWERFUL COOLING STARTS AT FLOOR LEVEL

Independently tested to meet
data centre airflow demands

- **Delivers** over 1000 l/s of conditioned air to support high-density cooling.
- **Offers** both straight and directional airflow for optimal performance.
- **Fully compatible** with all major modular raised-floor systems.
- **Tested** to BS13264:2001 heavy duty grade
- withstands demanding data centre traffic loads.

TOTAL AIR VOLUME	200L/S		400L/S		600L/S		800L/S		1000L/S		1200L/S	
STRAIGHT FLOW STATIC PRESSURE/ NOISE [NC]	1	<25	3	<25	7	25	13	30	21	35	31	40
DIRECTIONAL FLOW STATIC PRESSURE/ NOISE [NC]	1.5	<25	6	25	12	30	20	35	31	40	44	45
JET VELOCITY	1		2.8		3.4		4.3		5.2		6.1	

Static pressure includes OBD damper in fully open position.
